Building Permit Application Requirements

The Building Department, under the guidance of the Building Official, enforces local, state, and national code requirements related to construction activities within the City of Westlake. Its primary goal is to ensure the life safety and general welfare of residents, visitors, employees, and the public.

Any work involving the construction, enlargement, alteration, repair, demolition, or change of occupancy of a building or structure is required to obtain a Building Permit.

Building permit applications must comply 8th Edition (2023) of the Florida Building Code (FBC) and 2020 National Electrical Code (NEC).

- The application must include the correct parcel control number (PCN) for the location address. *The parcel control number can be obtained by accessing the Property Appraiser Public Access website at <https://www.pbcgov.org/papa/>.*
- Proof of ownership, via a copy of the recorded Warranty Deed or a statement from the Property Appraiser's website, must be submitted with the application package.
- All relevant contractors must be registered and in good standing with the City of Westlake prior to permit issuance.
- A digital (.pdf) copy of the completed application, plans, surveys, and all supporting documents must be submitted to <https://cityviewportal.westlakegov.com/>. See following page for a list of required documents.
