Budget Message

Honorable Mayor and City Council

I am pleased to submit the Fiscal Year 2024(FY2024) budget message for the City of Westlake. The city continues to grow at a sustained pace. The first of the commercial developments is online with more soon This development is not reflected in the FY2024 budget but it will have a larger impact in next year's budget. As explained in the past there is a period of approximately a year to a year and a half after completion before the full impact of new commercial buildings affects the budget. As development continues, we will continue to review and correcting sections of the Land Development Regulations where theory conflicts with applicability. The continued teamwork between the City Council, City Manager, City Attorney, City Planner, City Engineer, City Clerk, Building Department, administrative staff, Seminole Improvement District, and the developers' representatives will allow us to move forward and respond to market conditions.

According to the Palm Beach County Property Appraiser the City of Westlake's taxable value has increased fifty-five-point twenty-nine percent (55.29%) over last year's value. The growth in home construction and sales continue to be strong.

The ***proposed millage rate for the FY2024 is 5 mills***. This rate is projected to generate approximately \$4,721,257 in ad-valorem taxes to the City based on the taxable value as of January 1st as provided by Palm Beach County Property Appraiser. The total proposed FY2024 budget for the General Fund is \$5,548,900, which is a 12.25% increase over the budget for the current year. The difference between the property tax received and budgeted expenditures is made up of several components, including interest, licenses, permits & fees, other taxes.

The proposed millage rate of 5 mills is a 19.07% increase over the rolled-back rate. Generating revenue *based on the rolled-back rate* would not be practical as the city must be able to provide the administrative infrastructure to operate. Additionally, FY2024 is the first year that the city no longer can receive funding from the master developer. The largest impact on the taxes the individual pays is the assessed value established by the County Property Appraiser.

This is the first year that deficit funding is no longer available from the primary developer. Based on projections, the proposed millage rate of 5 mills should provide sufficient funds to accomplish all the items within the budget. The city is funding contingency and first quarter operating reserves. This is standard for municipal budgets to provide the cash needed to pay expenditures incurred before current year tax disbursements are received. It is important to remember that a portion of land within the City limits is assessed by the County Property Appraiser based on agricultural use. The agricultural land use assessed value is a lower and therefore generates lower tax revenue. As the City continues to develop residential and commercial properties the tax base will continue to increase.

There are approximately fifty-five individuals involved in the overall operation and administration of the city. These individuals are part of the contracted services provided by the various entities. These individuals are a combination of dedicated full-time personnel and those that work a percentage of their time on City business. This is part of the overall vision of the city to remain a government-light operation. This allows for an efficient effective government providing a high level of service to the residents.

Respectfully submitted,
